PROJECTS

BRAIN TUMOR DETECTION USING SUPPORT VECTOR MACHINE (SVM) AND LOGISTIC REGRESSION.

SET CONFERENCE PAPER | In this Paper, I have discussed and studied about the detection technique based on support vector machine (SVM) and logistic regression Algorithms are proposed and applied to brain tumor image detection process. This intelligent system will improve accuracy rate and reduces error rate of brain tumor.

BRAIN TUMOR PREDICTION.

MAJOR PROJECT | Now a day's tumor is second leading cause of cancer. So, This Brain Tumor Prediction is used to detect the brain tumor. The model is used to predict image of brain tumor whether the tumor is present in MRI image or not. Using Machine Learning - SVM Algorithm.

BUS BOOKING MANAGEMENT SYSTEM

MINOR PROJECT | In This , The travel agency maintains all processing only by manually, so retrieving the bus details is tedious job. In order to reduce the complexity, this project had been carried out. It was designed to automate the function of reservation of a ticket. This was developed with PHP as front end and MY SQL Server as back end.
